

Write the following information in the first page of Answer Script before starting answer

ODD SEMESTER EXAMINATION: 2020-21

Exam ID Number _____

Course _____

Semester _____

Paper Code _____

Paper Title _____

Type of Exam: _____

(Regular/Back/Improvement)

Important Instruction for students:

1. Student should write objective and descriptive answer on plain white paper.
2. Give page number in each page starting from 1st page.
3. After completion of examination, Scan all pages, convert into a single PDF, and rename the file with Class Roll No. **(2019MBA15)** and upload to the Google classroom as attachment.
4. Exam timing from 10am – 1pm (for morning shift).
5. Question Paper will be uploaded before 10 mins from the schedule time.
6. Additional 20 mins time will be given for scanning and uploading the single PDF file.
7. Student will be marked as ABSENT if failed to upload the PDF answer script due to any reason.

**BACHELOR OF SOCIAL WORK
FIFTH SEMESTER
SOCIAL WORK RESEARCH
BSW- 501**

Duration : 3 hrs.

Full Marks : 70

Time : 20 min.

(PART-A: Objective)

Marks : 20

Choose the correct answer from the following:

1×20=20

1.emphasis the development of generalizations, principles or theories that will be helpful in predicting future occurrences.
a. Hypothesis
b. Data
c. Research
d. Design
2. Objective of research is
a. To identify functional relationship existing in the social phenomena.
b. To develop social revival plan.
c. Both a and b
d. None of these
3.is conjectured relationship between two or more variables expressed in the form of testable statements.
a. Questionnaire
b. Hypothesis
c. Method
d. Data
4. Purpose of basic research is
a. Add human knowledge.
b. Answer practical question
c. Both a and b
d. None of these
5. According to....., "Hypothesis is the most powerful tool man has invented to achieve dependable knowledge".
a. C A Moser
b. W. Goode and P.K. Hatt
c. P V Young
d. F.N. Kerlinger
6. Insampling each item or element in universe has equal chance of being selected.
a. Non-probability
b. Probability
c. Snowball
d. None of these
7.deals with a choice of research design methods of measurement and types of analysis.
a. Data collection
b. Sampling
c. Methodology
d. Hypothesis
8. The term survey has two constituents, "sur" which meansand "view" which means to.....
a. Over, see
b. Under, analysis
c. Both a and b
d. All the above

9. Ais a format with list of questions designed to gather response from respondent on a given topic.
 - a. Schedule
 - b. Questionnaire
 - c. Interview schedule
 - d. All the above
10.enables us to select relevant and pertinent facts and makes our task easier.
 - a. Hypothesis
 - b. Data processing
 - c. Data analysis
 - d. Variables
11.is/are a type of group interview in which respondents are asked to discuss certain topics.
 - a. Personal interview
 - b. Focus groups
 - c. Structured interview
 - d. All the above
12. The areas of social work research may be broadly categorized as
 - a. To measure the services offered as they relate to needs.
 - b. To list the efficacy of specific techniques of offering services.
 - c. Both a and b
 - d. None of these
13.research is a form of research that relies on the methods of natural sciences, which produces numerical data and hard facts and it aims at establishing cause and effect relationship between two variables by using mathematical, computational and statistical methods.
 - a. Quantitative
 - b. Fundamental
 - c. Qualitative
 - d. Primary
14. Some time it's impossible to cover all the area of research, so the researcher may do thesampling to select a particular area for her/his research designing.
 - a. Stratified
 - b. Convenience
 - c. Lottery
 - d. Quota
15.will indicate that you have a strong grip on the subject matter and your preliminary research has been thorough.
 - a. Statement of the problem
 - b. Bibliography
 - c. Objective of the study
 - d. Research question
16.Questionnaire is a type of questions gives two options to respondents - yes or no, to choose.
 - a. Dichotomous
 - b. Scaling
 - c. Multiple choice
 - d. Open
17. Using..... software one can perform various analyses such as non-parametric testing, descriptive statistics, reliability testing of scales, average testing, testing the difference between classification variables.
 - a. STATA
 - b. SPSS
 - c. Excel
 - d. MS Word
18. In order to avoid some drawbacks, data contained in schedules/questionnaires are transferred to another material for the purpose of tabulation and this intermediary process is called

- a. Tabulation
- c. Schedule

- b. Scales
- d. Transcription

19. Cluster sampling is a method where the researchers divide the entire population intothat represent a population.

- a. Half
- c. Section
- b. One third
- d. None of these

20.method is dependent on the ease of access to subjects such as surveying customers at a mall or passers-by on a busy street.

- a. Convenience sampling
- c. Judgmental sampling
- b. Cluster sampling
- d. Quota sampling

(PART-B : Descriptive)

Time : 2 hrs 40 mins. .

Marks : 50

[Answer question no.1 & any four (4) from the rest]

1. Discuss elaborately about the significance of research in field of social work. 10

2. a) What is applied research? 2+8=10
b) Discuss about the process of social work research.

3. a) What do you mean by null hypothesis? 4+6 =10
b) Discuss briefly about the role of hypothesis in social work research.

4. a) Define sampling. 2+2+6=10
b) What are the different types of sampling methods generally used in social work research? Details about any six types of sampling method.

5. a) What do you mean by observation method? 2+8=10
b) Distinguish between case study method and interview method.

6. a) Write short note on standard deviation. 5+5=10
b) Write short note on SPSS and its area of application.

7. a) Define median. 1+9=10
b) Discuss very briefly about the usefulness of measure of central tendency in social work research along with all the popular averages.

8. a) Discuss about consequence of data collection and data processing in research. 4+6 =10
b) How data processing and data analysis is considered as most important steps in good report writing? Explain with justification.

= = *** = =
