SET

BA LLB SEVENTH SEMESTER LEGAL RESEARCH METHODOLOGY

BLB - 703 | SPECIAL REPEAT|

JUSE OMR FOR OBJECTIVE PART

Full Marks: 80

Duration: 3 hrs.

Time: 30 min.

[PART-A: Objective]

Choose the correct answer from the following:

Marks: 30 $1 \times 10 = 10$

- While selecting a research topic which of the following is important to consider?
 - a. Role of research supervisor
- b. Role of existing literature d. All of the above
- c. Interest of the researcher
 - "Drinking and driving leads to accident" it is a-
- a. Fact

b. Hypothesis d. Law

- c. Theory
- A good hypothesis must be based on a good research question. So a hypothesis could

Hypothesis should be capable of being

- be called as a good hypothesis if it possesses the following characteristic
 - a. Hypothesis should be simple so that it is easily understood by everyone
- tested All of the above
- relationship between variables

c. Hypothesis should state

- Empirical research isa. Library based research
- c. Both (A) and (B)
- b. Field based research
- d. None of the above
- 5. Which one of the following is a data collection method?
 - a. Tabulation

b. Interview

c. Hypothesis

- d. None of the above
- Research design can be broadly classified into
 - a. Qualitative research design
- b. Quantitative research
- c. Both (A) and (B)
- d. None of the above
- Why do you need to review the existing literature?
 - a. To make sure you have a long list of references
 - c. To find out what is already known about your area of interest
- b. Because without it, you could never reach the required word-count
- To help in your general studying
- Which of the following is not a data-collection method?
 - a. Research Questions

c. Survey Questionnaires

- b. Structured Interview d. Participant observation

- 9. Ouestionnaire is a:
 - a. Research method
 - c. Tool for data collection
- b. Measurement technique
- d. Data analysis technique

10. Characteristics of a good research report includes-

a. Clear topic

b. Balanced language

c. Statement of scientific facts

d. All of the above

Answer the following: (Use descriptive answer sheet)

 $2 \times 10 = 20$

1. What is the difference between fact and hypothesis?

2. What is a research design?

3. What do you understand by the term 'participant observation'?

4. What do you understand by the term 'Doctrinal research'?

5. What is an independent variable?

6. what is the significance of hypothesis in research?

7. What is a schedule?

8. What is primary data?

9. What is sampling?

10. What is interpretation of data?

PART-B: Descriptive

[Answer the following questions]

Time: 2 hrs. 30 min.

a. What is Doctrinal research? What do you know about the 3+7=10 difference between research method and research methodology? b. If you are an individual researcher and asked to do a research 10 on a topic of your choice, what would be the different areas you would be taking care of while selecting a topic? And what are the different aspect you would be dealing with while going through your research? a. What is an empirical research? Write the advantages and 2+8=10 disadvantages of empirical research. b. Write short note on-5+5=10 a. Historical research Case study a. What do you understand by 'hypothesis'? Explain the different 3+7=10 types of variables in a hypothesis? b. What do you understand by the term Research design? What 5+5=10 are the features of a good research design? Explain. a. Discuss the various types of observation method. What are the 3+7=10advantages and disadvantages of observation method? b. What do you understand by secondary data? What are the 10

various methods of collection of secondary data. Explain

Marks: 50

5. a. Explain the different types of sampling and their usage in research.

10

b. Write short note on-

5+5=10

a. Precautions of writing a research report

b. Contents of a good research report
